Growth Acquisition Strategy

- Organic growth has been disappointing but remains our priority and best prospect of delivering strong EPS growth
- Funding of acquisitions will predominately be funded from profits & borrowings
- CUP acquisitions will be:
 - Low risk tuck-ins: 100% acquisitions of small firms incorporated into existing CUP businesses
 - Minority to majority interests (but not 100%) of firms that don't qualify for BLUE789 or ADVICE389
 - BLUE789: larger accounting firms
 - ADVICE389: larger financial planning firms
 - Selected investments: in financial service businesses (e.g. Class)

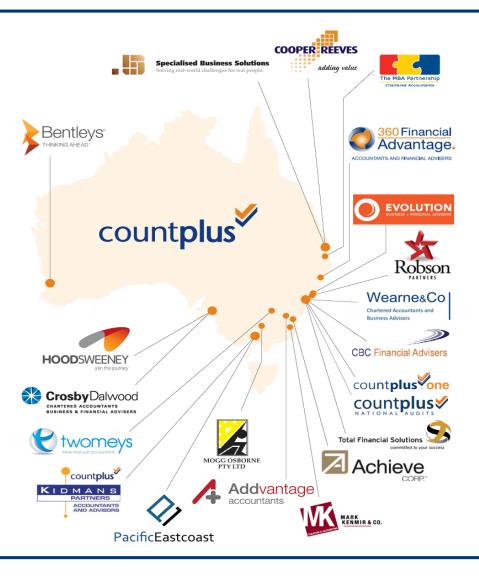

Outlook

Our success will come from:

- Improved performance by existing investments (our core focus)
- Selective acquisitions by CUP, BLUE789 & ADVICE389
- Acquisitions will initially absorb our increased earnings and consume more debt (offset in part by progressive DEP)
